Cc: [REDACTED]

A belated Happy Birthday to you! I was in Milwaukee Monday – Wednesday and did not have your e-mail address with me. I trust you are doing well.

Not much new my way in terms of early dollars. Unless you consider the 1794 Dollar selling for a reported \$7.85 Million to be news. This Specimen is listed as ex. Col. Green, thus you likely handled it "back in the 1940s." Who would have thought then....

I submitted my research on the names of the Detroit Civil War Store Card token issuers to the Civil War Token Society for the Fuld book revision project we are all working on. I've also discovered over a dozen new Detroit CWT die marriages over the years – no new merchants, just Cards in unlisted metals. This project was much more difficult than I thought – some of these were down right hard to trace. One or two issuers virtually impossible to figure out beyond what is on the token; at least to this point. We're finally moving the E. B. Ward Store Card currently listed under Cleveland to Detroit. I wrote an article on this a few years ago.

I did pick up a silver spoon last year with Jacob Perkins' silversmith mark. I should have loaned it to the Newburyport Historical Society for the Jacob Perkins workshop restoration grand opening earlier this month.

Lastly, I am now a member of the Henderson Supper Club. You may be familiar with this organization? Your good friend Ken Bressett is a member. Great group of numismatists!

Regards,

Dave

Dear Dave:

Thank you for the birthday greetings, Please help me get to 100 by keeping me up to date on numismatics.

The relationship of the high value 1794 dollar to Col. Green is unknown to me. I was told that the purchase price was trading a nice collection of coins for the dollar so the coins in the collection might have been well valued. My piece is rated Ex Fine as you may remember. At least mine did not have an obese planchet and have to be filed before striking.

I have not looked at my Missouri Civil War store cards for years and wonder if I had anything unlisted. Fuld may know already. In any event who else has a collection of nice Missouri pieces at this time?

I have an unusual numismatic article coming out in September. It is being published in the Journal of the Early Republic. I am told this is an elite academic journal. You are going to get a surprise of you learn of it but I intend to try to get it in some normal media also. It relates to someone Jacobs Perkins knew well.

It is always a delight to hear from you..

Eric

Eric, I ran into Martin Logies at the ANA Convention in Boston last month. He recently published the second edition of his book, *The Flowing Hair Silver Dollars of 1794*, An Historical and Population Census Study.

Your 1794 silver dollar (ex. Col. Green / B. G. Johnson) is listed on page 113 and is called EF-40 in the book. The photo is a black and white image "reproduced from the Chapman Auction plates." (*Where a color photo was available to Martin he used the color photo*).

Martin would like to update the photo of your specimen in the next edition of his book. **With your permission I will have Rory Rea forward a digital photo of your 1794 Dollar to Martin for publication in the next edition of his book.**

Martin's book (as did the Collins Manuscript) has the Col. Green and EPN pedigree included, but no mention of B. G. Johnson. If you agree, I will have him add Johnson's name to the pedigree.

Lastly, EF-40 is *probably* a very conservative grade! I also note that the Collins manuscript on 1794 dollars had your specimen listed as VF-35. We should give Martin a more proper grade for your coin.

I seem to recall your specimen would grade About Uncirculated. Compared to other 1794 dollar photos in the book, your specimen is comparable to some graded by the two major services as high as AU-58. From the photo Rory took, your specimen appears to have some light rub or wear. I can't tell how much lustre is retained from the photos. If you are OK with sending Martin Logies the photo to be used with credits, **what grade would you like me to send along with the digital photo?**

I hope you are doing well. Please let me know if you have any questions or need additional information. Thanks.

Regards,

Dave

Dear David:

I have been thinking about Isaac Perkins ever since Kraljevich wrote an article in the August 2010 *The Numismatist* concerning the 1792 WASHINGTON PRESIDENT coins. It asserts that Isaac Perkins (your relative) seems to have made them. I am asking John to explain some of the basis for this. If you know anything about the matter please let me know promptly..

You have my permission to let your friend use an image of my 1784 silver dollar. As far as its grade is concerned I have almost no knowledge in this area. Whatever grade you or any of them determine is correct is up others. The important thing to me is to get the accession into our collection correct. The coin was purchased by me on behalf of me and Burdette G. Johnson jointly from the Colonel Edward H. R. Green estate executors. I withdrew it for my collection pursuant with my right to do so and Johnson withdrew for himself an equal value of other items I did not choose.

Subsequently I donated the coin with others to Eric P. Newman Numismatic Education Society, a Missouri not for profit corporation where it now resides..

If you need more explanation or approval please let me know. I should have a copy of the book

My very best to you.

Eric

To: [REDACTED]

Thank you for permission on the photo, and for the quick reply to my request. Rory and I are working to get the photo to Martin Logies in the right format.

I think you meant to type "Jacob" Perkins, not Isaac (although I do have a lot of Isaac's in my family tree)? I have read the article but I do not have any additional insight concerning the article.

Martin Logies for some reason does not publicize his books. The second edition of his 1794 Dollar book was published the week of the ANA – Martin had some copies shipped to the ANA. I happened to run into him and learned of the book in talking with him (If I hadn't run into him I wouldn't even know of the book. I still haven't seen anything in print regarding it being available.). Thus I picked up a copy at the ANA Convention in Boston.

You said you "should have a copy of the book?" Are you interested in acquiring a copy of this second edition (per your note)? If so I will contact Martin and see if he still has copies available for sale.

I'm curious to hear what you learn from John Kraljevich. Thanks.

Regards,

Dave

Dear David:

Thank you for informing me of the coming sale of the Bathe book on Jacob Perkins. I was fortunate to have acquired a copy in the meanwhile and have been reading it.

I am studying Perkins now in connection with Washington portrait coins and have determined temporarily that contrary to the thinking of John Kraljevich (in the August 2010 The Numismatist) as well as others that the 1792 WASHINGTON PRESIDENT coinage was designed and struck by Hancock and Westwood. The Fuld second edition of Medallic Portraits of Washington indicates that the die for the one now at ANS was obtained by Jacob in 1818-19 from Westwood's minting facility in England and sent to a member of the Perkins family in America whose descendants sold it to Collis who made the restrikes. If you have any comments on this matter I would appreciate hearing from you.

By accident I also found in my collection a small three denominational sample note with then name Salem Bank and the word Newburyport indicating I presume pride in his invention of siderography. I will send you a copy of it if that interests you/

My best holiday greetings.

Eric

I'm curious as to your thoughts on Rory's new book on the Early U.S. Dimes? I assume you've received your copy by now.

As I'm sure you know, there are a number of new books released recently. The *Silver Coins of Massachusetts* by Christopher J. Salmon is also a beautiful book. I don't know Christopher nor was I familiar with his name before this book came out. I also liked *The Secret History of the First U.S. Mint*. Three new books published in the last two months!

Will you be attending the ANA in Chicago this summer? It's not too far from your home.....

Hope you are doing well. Thanks.

Regards,

Dave

Dear Dave:

I was very glad to hear from you.

I do not plan to be in Chicago for the Convention as physically it probably is a little too much for me.

As to new books you mention Rory's book is going to be so gorgeous I cannot get adjusted to it. I just signed the pages for inclusion in the elaborate edition. You ought to be delighted to have played such an important part of it. I was presented with a special smaller copy of it and cannot realize so many illustrated coins were acquired by me over 60 years ago and I rarely looked at them.

As to *The Secret History of the First US Mint* I had the privilege to write the Preface and realize how dedicated superb teamwork of the two authors can produce a masterpiece.

Chris Salmon asked me for only one image for his Massachusetts silver coin work but I did not have the privilege of reading any part of his manuscript. His work will stimulate much discussion. He is continuing his research and is very capable and devoted to the work.

As I told you previously I am trying to determine whether your genius relative, Jacob Perkins, had anything to do with Washington President pieces or Born in VA pieces and I probably will send out an Inquiry to Fuld and others as to what they know. I believe I have a solution to the problem.

Stay healthy and continue to stay in the action.

Eric

I'm curious as to your thoughts on Rory's new book on the Early U.S. Dimes? I assume you've received your copy by now.

As I'm sure you know, there are a number of new books released recently. The *Silver Coins of Massachusetts* by Christopher J. Salmon is also a beautiful book. I don't know Christopher nor was I familiar with his name before this book came out. I also liked *The Secret History of the First U.S. Mint*. Three new books published in the last two months!

Will you be attending the ANA in Chicago this summer? It's not too far from your home.....

Hope you are doing well. Thanks.

Regards,

Dave

Dear Dave:

I was very glad to hear from you.

I do not plan to be in Chicago for the Convention as physically it probably is a little too much for me.

As to new books you mention Rory's book is going to be so gorgeous I cannot get adjusted to it. I just signed the pages for inclusion in the elaborate edition. You ought to be delighted to have played such an important part of it. I was presented with a special smaller copy of it and cannot realize so many illustrated coins were acquired by me over 60 years ago and I rarely looked at them.

As to *The Secret History of the First US Mint* I had the privilege to write the Preface and realize how dedicated superb teamwork of the two authors can produce a masterpiece.

Chris Salmon asked me for only one image for his Massachusetts silver coin work but I did not have the privilege of reading any part of his manuscript. His work will stimulate much discussion. He is continuing his research and is very capable and devoted to the work.

As I told you previously I am trying to determine whether your genius relative, Jacob Perkins, had anything to do with Washington President pieces or Born in VA pieces and I probably will send out an Inquiry to Fuld and others as to what they know. I believe I have a solution to the problem.

Stay healthy and continue to stay in the action.

Eric

Eric, Rory Rea will be giving you a special deluxe leatherbound copy of his new book on Early Quarter Dollars. Rory has two questions for you - would you like your name on the outside front cover (in the lower right), and if so should they use, "Eric P. Newman?" Or?

Secondly, they are offering an optional linen slip cover (case) that matches the book. If you would like this cover it would be at a cost of \$50.00.

I hope you are doing well. By chance will we see you in a few weeks in "nearby" Chicago at the ANA Convention? Thanks.

Regards,

Dave

Dear Dave:

It is very kind of you to tell me that Rory Rea wants to send me his leather bound Early Quarters publication. If he wants to stamp my name on it the suggested text is fine. I want to thank you for sponsoring this project and I will never forget the enlightenment I received from the visit both of you made to St. Louis.
A slip cover is not necessary.

I am sorry I will miss seeing you in Chicago but physically it would be complicated for me even though I feel I still have most of my marbles.

Soon I will be working to complete my query as to whether Jacob Perkins did or did not participate in the preparation of the 1792 or 1793 WASHINGTON PRESIDENT coinage.

Did I ever ask you whether you were related to Marlin Perkins who was my lifetime friend who was director of the St. Louis Zoo and the television star of ANIMAL KINGDOM? He also sponsored me for membership in the EXPLORERS CLUB. He was born in or around Joplin MO and an expert snake handler. He attended the opening of my Money Museum in 1981. His widow is still alive I think.

Continue to thrive.

Eric

Thanks for the reply and information. I apologize for my belated reply, and I'm sorry you won't be able to be in Chicago. I understand of course.

You are welcome, but it is Rory and I that thank you for the opportunity to see, study and photograph your wonderful collection of early quarters and dollars. Someday we'd love to do the same with your half dimes, dimes and half dollars if that would be possible.

I am probably related to Marlin Perkins in someway. He sounds like a very interesting person. I remember him from "Wild Kingdom" when I was a kid. My Perkins arrived in Boston in 1631, and removed to Ipswich, Mass. in 1633. Their land was next to some guy named Winthrop.... Jacob Perkins was a little north of there in Newburyport, as you know. I look forward to your research and conclusions. I will hold off on acquiring the Washington President pieces until I know more!

I talked with Ken Bressett last night at the monthly Henderson Supper Club Meeting in Colorado Springs. Have you ever attended one of the meetings when you were visiting the ANA?

Thanks.

Regards,

Dave

Dear David:

Thank you for remembering the correct name of WILD KINGDOM in which Marlin Perkins was the star. He once told me that a large landowner up the river from St. Louis offered him \$10 per day to catch rattlesnakes on the land and he said he would have paid the owner more than that for the privilege of catching them.

Eric Newman <[REDACTED]>

Col. Green & 1796 Quarters

1 message

W. David Perkins <[REDACTED]>

Wed, Sep 11, 2013 at 3:58 PM

To: [REDACTED]

Eric, I hope you are doing well.

I am in the process of cataloging your early U.S. silver dollars 1795-1803 and your early quarters [REDACTED] for the Heritage Auction sale in November. I have a question on the 1796 Quarters.

Over the year I have heard the story many times and from different sources that Col. Green had a group of nearly 100 Uncirculated quarters at one time. This story may have originated with Abe Kosoff (?). When this story is told it usually was, "[REDACTED] quarters." I'm thinking that Green could have easily had 100 mint state early quarters 1796-1838, but I wouldn't think he had 100 mint state 1796 quarters? If he did, where are they all today?

Can you help me with this story and the facts. How many 1796 quarters were in the Green Collection when you acquired it?

Thanks.

Regards,

W. David Perkins

We are pleased to be helpful to you in furnishing detail on the quantity of 1794 US quarters in the Green Estate. The rumors are simply not true. Mike Spurlock of Russellville, Arkansas purchased the inventory of the Green Estate a few years ago and we hope it will answer your questions. The inventory was prepared by FCC Boyd and sworn to by Boyd. Whether he Spurlock wishes credit for the information is something you will have to ask him. We hope he will cooperate with you and we suggest you limit your inquiry only to the item you mentioned.

Our very best to you and yours,

Eric
